

Basic Fractions Worksheet (Original)

A fraction shows equal parts of a whole.

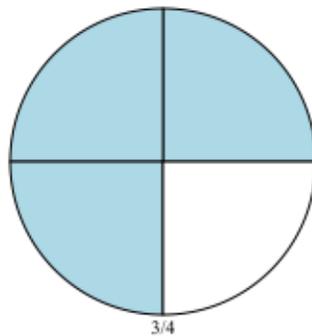

Example: $\frac{1}{2}$ means 1 out of 2 equal parts are shaded.

Example: $\frac{1}{3}$ means 1 out of 3 equal parts are shaded.

Example: $\frac{3}{4}$ means 3 out of 4 equal parts are shaded.

Practice: Write the fraction represented by the shaded part.

1.	■■ (1 shaded out of 2 parts) _____
2.	■■■ (2 shaded out of 3 parts) _____
3.	■■■■ (3 shaded out of 4 parts) _____
4.	■■■■ (1 shaded out of 4 parts) _____

Answer Key

1) $\frac{1}{2}$ 2) $\frac{2}{3}$ 3) $\frac{3}{4}$ 4) $\frac{1}{4}$
